MARKET OUTLOOK

Commodity	Current Market Conditions
Apple Juice	The crop in Argentina was destroyed. Chile is sold out as a result. Poland recently experienced a freeze. Prices are starting to move up.
Lemon Juice	Processing has just begun in Argentina. The process volume is expected to be lower this year. Prices could move up as a result.
Pineapple Juice	Pineapple prices have retreated from the highs of the last two years. Availability is good.
Orange Juice	The USDA crop estimate for Florida was initially 70M boxes but continues to drop. Prices have taken wild swings on the futures market this year.
